# Raja Abdullah

Senior Software Manager  
Quetta, Baluchistan, Pakistan

## Summary

I am a seasoned software developer with over 8 years of experience in VB.Net, C#, ASP.net, ASP.Net Core JavaScript, RESTful APIs, web and desktop application development, SQL, and MSSQL. Throughout my career, I have honed my skills in all stages of the software development life cycle, from requirements gathering to deployment and maintenance. My expertise lies in designing and implementing tailored solutions that align with business objectives, enhance user experience, and optimize operations. As a project manager, I effectively lead teams of developers, overseeing the development of complex software solutions. I am dedicated to delivering projects on time, within budget, and with the utmost quality standards. With a strong technical background and proficient leadership skills, I am well-prepared to drive success in any software development endeavor.
