

ABDUL MOMIN

Full Stack Web Developer

As a highly motivated and skilled .NET MVC C# Developer with 3+ years of experience, I specialize in designing intuitive dashboards, analyzing complex data sets, and developing robust web applications. My expertise includes using stored procedures to efficiently populate data to the front end, creating insightful reports, and developing dynamic graphs. I am committed to delivering high-quality software solutions that exceed client expectations and drive business success.

SKILLS

.NET MVC C# Development:

- Building robust and scalable web applications
- Experience with Visual Studio and TFS for development and project management

Dashboard Design and Data Analysis:

- Designing interactive and visually appealing dashboards
- Using MS SQL Server and SAP Crystal Reports for data analysis and reporting

Stored Procedures and Data Integration:

- Writing and optimizing stored procedures for data processing
- Ensuring accurate and efficient data transfer from backend to front-end
- Creating dynamic reports and graphs for real-time data visualization

Front-End Development:

- Proficient in HTML, CSS, and jQuery
- Creating responsive, user-friendly web interfaces
- Integrating front-end and back-end systems for optimal performance

Problem-Solving and Collaboration:

- Strong analytical and problem-solving skills
- Excellent communication and teamwork abilities
- Committed to continuous learning and staying updated with industry trends
