Pakistan ,Bahawalnagar

### PROFILE

Software Engineer with up to one year of hands-on experience in Python and Flutter development. Proficient in building robust, cross-platform mobile applications using Flutter and implementing backend logic with Python. Skilled in translating client requirements into technical solutions and collaborating effectively in agile environments to deliver high-quality software products

### PROFESSIONAL EXPERIENCE

Skills 2023 - Present

#### Developer

- Programming Languages: Python, Dart  
Proficient in developing applications and backend services using Python and frontend interfaces using Dart (Flutter).
- Cross-Platform Mobile Development: Flutter  
Experienced in building responsive and aesthetically pleasing mobile applications for both iOS and Android platforms using Flutter.
- Database Management: SQLite, MySQL  
Familiar with designing and implementing database schemas, optimizing queries, and ensuring data integrity using SQLite and MySQL.
- Version Control: Git  
Proficient in utilizing Git for version control, including branching, merging, and maintaining repositories to manage project code effectively.
- Problem Solving:  
Experienced in quickly identifying issues and developing effective solutions in development workflows.

Upwork Software Engineer 2023 - Present

#### Services I Offer

- Flutter Development: Create high-performance, cross-platform mobile applications that are visually appealing and functionally robust.
- Python Development: Specialize in AI applications, including dubbing software for full movies with original voice synthesis in multiple languages.
- UI/UX Design: Design intuitive interfaces that prioritize usability and enhance user satisfaction
- Firebase Integration: Implement secure authentication, real-time databases, and cloud storage solutions to optimize app functionality.

### EDUCATION

Bachelor of Science, Software Engineering 2020 - 2024

The Islamia University of Bahawalpur

Inter , ICS 2017 - 2019

Govt Higher Secondary School Madressa

Matric 2015 - 2015

Govt Higher Secondary School Madressa

### STRENGTHS

#### Proficiency in Multiple Programming Languages

- Skilled in Python and Dart, allowing for versatile development across different platforms and project requirements.

#### Expertise in Cross-Platform Mobile Development

- Experienced in using Flutter to create responsive, high-performance mobile applications for both iOS and Android, ensuring a seamless user experience.

#### Strong Backend Development Skills

- Proficient in developing robust backend logic and services using Python, ensuring reliable and efficient application performance.

### SKILLS

#### Operating Systems

Linux · Windows

#### Technology:

Python · TensorFlow · Keras · TTS ·

Pandas · Flutter UI/UX · SQL · MySql ·

Firebase

#### Tools Experience:

PyChorm · VS code · Android Studio

#### Tools

Python · mySQL · Desktop app.NET ·

Flutter

### ACHIEVEMENTS

#### Movie Dubbing Research in Multi Languages

Conducted research on software solutions for movie dubbing, analyzing and evaluating tools for audio synchronization and dubbing efficiency.
