👤 PROFILE

Dynamic software engineering student with a passion for backend development and crafting robust, scalable solutions. A detail-oriented problem solver dedicated to enhancing user experiences through innovative code and comprehensive testing. Strong communicator and collaborative team player thriving in dynamic environments.

🌐 LANGUAGES

C, C++, C#

Python

SQL

Flask

HTML/CSS

Node.js, Express, React

🎓 EDUCATION

Bachelors in Software Engineering

University of the Punjab, PUCIT

2020 – 2024

CGPA 3.03

Intermediate of Computer Science (ICS)

Punjab Group of College (PGC)

2018 – 2020

grade A

Matric (Computer Science)

Allied School

2017 – 2018

📁 PROJECTS

BitBlog Connect (FYP)

in progress

Dynamic Crypto Blogging Platform

MERN Stack Implementation

Real-time Cryptocurrency Rates and Blogging

Community Engagement Features

Efficient Data Storage with MongoDB

Real-time Rate Updates via API Integration

ChatShat

A real time chatting app in node.js, express and socet.io

Real-time chat app showcases seamless communication with Node.js and Socket.IO. Users join conversations, send messages, and view updates instantly.

Image Cartoonification

Python, Flask, openCV

Flask-based project implements Edge Detection, Color Quantization, and Bilateral Filtering for image cartoonification. Users upload images, click "Cartoonify", and instantly see vibrant cartoon transformations.

📜 CERTIFICATES

- Web Accessibility Training by UNICEF
- Project Management by Great Learning
- Content Writer by Event Management Society(EMS)
- Introduction to Generative AI by Google Cloud Skill Boost
- Innovating with Google Cloud Artificial Intelligence by Google Cloud Skill Boost

🔧 TOOLS/Frameworks PROFICIENCY

Jira

I have manage and track software development projects, including planning, task assignment, progress tracking, and issue management.

Requirement Management Tool (RMT)

In RMT, I have documented, organized, and tracked project requirements throughout the software development lifecycle.

Six Sigma, Scrum, Agile
