Summary

A Software Engineering graduate with strong skills in web development and quality assurance. I have hands-on experience in developing full-stack applications using Angular, ASP.NET Core, and Azure. My expertise includes building user-friendly interfaces, and ensuring smooth application performance. I am committed to delivering high-quality solutions that meet both technical and business needs.

Experience

Instructor Web Development

March 2024 - June 2024

National Vocational and Technical Training Commission (NAVTTTC), Jamshoro

- Led comprehensive web development courses for 25+ students, covering HTML, CSS, JavaScript, and modern frameworks, achieving a 90% pass rate.
- Designed and implemented a detailed curriculum incorporating hands-on projects using Angular, enhancing students' practical development skills.
- Provided mentorship and support, ensuring students' understanding of core concepts and successful project delivery.

Projects

Restaurant Table Booking App

Angular, ASP.NET Core, Microsoft SQL, Azure

- Developed a full-stack restaurant table booking application with Angular frontend and ASP.NET Core backend.
- Deployed the application on Azure, utilizing Azure App Service and Azure SQL Server for hosting and database management.
- Integrated Azure CI/CD pipelines for automated build, deployment, and logging with Serilog.

Ekart

Angular

- Developed an e-commerce web application using Angular, focusing on a responsive user interface and dynamic product management.
- Implemented a secure user authentication system and a shopping cart feature for seamless user experience.

Student Management System

Angular, ASP.NET Core

- Created a student management system with Angular for the frontend and ASP.NET Core for backend operations.
- Implemented efficient CRUD functionalities and seamlessly integrated them with the Angular frontend.
- Designed user-friendly interfaces for managing student records and courses.

Education

Bachelor of Engineering in Software Engineering
Mehran University of Engineering and Technology, Jamshoro

Oct 2019 - Nov 2023

Certifications

- **Google Project Management**, Coursera, 2023

Coursework

- **Fullstack Web Development with Angular and ASP.NET Core**, 2024
- **Angular Essential Training**, 2023
- **Programming Foundations: Software Testing/QA**, 2023
- **Complete Javascript & jQuery Course with Bonus Vue JS Intro**, 2021

Skills

Technical Skills: UML, Software Design, JavaScript, SQL, Angular, TypeScript, ASP.NET Core, Firebase, C++, OOP, Manual Testing, CI/CD, Azure

Soft Skills: Communication, Presentation, Stakeholder Management, Project Management, Problem-Solving

Tools: MS Office Suite, Jira, Figma, Asana, Git
