## Profile

As a software engineer, I possess a strong foundation in computer science, backed by hands-on experience and academic training. Proficient in programming languages, algorithms, and data structures, I excel in solving complex technical problems and delivering high-quality solutions. With effective communication and teamwork skills, I contribute positively to collaborative projects. Committed to excellence, I am passionate about leveraging technology to create impactful software solutions.

## EXPERIENCE

- **Internship** (6 weeks)  
**Company:** Easy Solutions  
I have completed my internship using the .NET framework, where I implemented CRUD operations and a Web API following the CQRS pattern.

## ACADEMIC PROJECTS

**Semester Projects:**

- University Student Administration Web Application
- Twitter automation using Selenium (Python)
- Amazon Reviews Web Scraper
