## SUMMARY

I'm a Computer Science graduate from COMSATS University. I have secured 4th position in final year project. I have 5 years of freelance experience in front-end development. I've worked on many projects for different clients, and I know how to use various programming languages and tools. I love creating easy-to-use web applications and learning new things. Now, I'm looking to join a team in the tech industry where I can use my skills and help build great projects.

## EDUCATION

### COMSATS University Islamabad

Bachelor's Degree in Computer Science  
2020-2024

## WORK EXPERIENCE

### Shopify Developer

Fiverr (Top Rated Seller) | 2020 - Present

- Expert in Shopify development, delivering top-quality work in every project.
- Implemented advanced features and custom themes to enhance online stores.
- Integrated Shopify with third-party apps and APIs for better functionality.
- Focused on creating a seamless shopping experience for users.
- Built strong client relationships through clear communication and reliable service.

### Frontend Developer

Encyphers | 2022 - 2024

- Revamped e-commerce platforms using Shopify, enhancing sales and customer retention.
- Developed server-side projects with Node.js, improving user experience and response times.
- Created dynamic web applications with Vue.js and Nuxt.js, optimizing overall site performance.
- Designed and optimized databases using SQL and Prisma, streamlining data management and retrieval processes.
- Integrated MongoDB with existing Node.js applications.
- Collaborated on cross-functional projects, combining front-end and back-end expertise to improve overall project efficiency.

### Founder & Frontend Developer

An Agency (<https://anagency.com.au>) | 2022 - 2024

- Focused on Shopify development for client projects, including bug fixing, customization, and full store creation.
- Developed user-friendly websites using Webflow, ensuring seamless navigation and design.
- Implemented enhancements and optimizations to improve store performance and user experience.
