SUMMARY

Experienced MERN Stack Developer proficient in building scalable web applications with a strong focus on user experience and performance. Proficient in the full stack of technologies, including Mongo DB, Express.js, React, and Node.js, I am skilled in creating scalable and efficient solutions. I have a strong foundation in front-end and back-end development, enabling me to deliver end-to-end solutions with a keen eye for user experience and responsive design. My expertise includes creating Restful APIs, optimizing database performance, and implementing security best practices. I am passionate about staying up-to-date with the latest industry trends and technologies to continually improve and expand my skillset. With excellent problem-solving abilities and a commitment to delivering high-quality code, I am ready to contribute to dynamic projects and help businesses achieve their digital goals.

EXPERIENCE

Dec. 2020 – Present

Freelance Full Stack Web Developer Self-Employed

- Collaborated with a diverse client base to conceptualize, develop, and deliver custom web solutions tailored to their unique requirements.
- Demonstrated adaptability by working on a wide range of projects spanning various industries and technologies.
- Successfully delivered end-to-end web applications, showcasing a deep understanding of both front-end and back-end development.
- Utilized a variety of technologies, tools, and frameworks to build responsive and user-friendly websites that met or exceeded client expectations
- Proven ability to quickly learn and adapt to new technologies and frameworks as needed for each project.
- Effectively communicated with clients to gather requirements, provide updates, and ensure project milestones were met on time and within budget.
- Implemented best practices for web development, ensuring code quality, security, and performance optimization.
- Maintained a strong commitment to staying current with industry trends and continuously improving skills to provide clients with cutting-edge solutions.
