SUMMARY: Dynamic Finance Leader | Revenue Growth Strategist | Data Center – Shared Services Expert

Orchestrating Business Analytics at a Top-Tier Fortune 50 Company, my strategic acumen has been pivotal in driving data-informed decisions that enhance operational efficiency. My mastery in Extract, Transform, Load (ETL) processes and month-end close operations has led to a significant reduction in processing time and a more accurate reporting system, ensuring precision and insightful reporting that supports Equinix's robust digital infrastructure—enhanced data and reporting accessibility by 15% and reduced reporting cycle times by 25% through proactive leadership skills.

Collaborating with cross-functional teams, our work has bolstered global market analysis, empowering the FP&A team, global Capacity Management, and global commercial team with consolidated reports and ad-hoc analyses. My analytical approach, coupled with a keen understanding of business analytics, positions me to effectively navigate and shape the digital landscape, with a focus on delivering sustainable, scalable growth.
