Rawalpindi Pakistan , Lahore Pakistan

## SOFTWARE ENGINEER

I am an experienced React Native developer and React js with a strong proficiency in JavaScript, React, and Redux. My primary goal is to craft user-friendly and high-performance mobile applications. I thrive on collaborative efforts, always striving to discover innovative solutions and continuously enhancing processes to achieve superior results

## KEY COMPETENCIES

React.js Development	State Management (Redux,ContextApi)	Cross-Platform Development
React Native Development	UI/UX Design Implementation	Debugging and Troubleshooting
Component-Based Architecture	RESTful API Integration	Performance Optimization

## PROFESSIONAL EXPERIENCE

### Tech Track I Deans Trade Center Peshawar Pakistan

2022-2023

#### Front End Developer

As a Front End Developer at TechTrack, I spearheaded the transformation of Figma designs into high-quality, responsive code, ensuring seamless user experiences across various platforms. My core responsibilities included harnessing HTML, CSS, and JavaScript alongside React.js to bring designs to life, while also integrating APIs to enhance application functionality. Leveraging Redux Toolkit, I adeptly managed state within complex applications, streamlining data flow and enhancing overall performance. My commitment to delivering pixel-perfect interfaces, combined with my proficiency in API integration and state management, facilitated the creation of robust and user-friendly web solutions.

### E-services Rawalpindi Pakistan

June 2023 - Oct 2023

#### React Native Developer

As a React Native Developer at E-Services, I converted Figma designs into dynamic mobile apps, integrating advanced features like cookies and local storage for optimal performance. By seamlessly integrating APIs and managing state with Redux, I enhanced app functionality and stability. I also employed Canva for captivating graphic design and oversaw app publication for successful launches.

### Awwailtech India (Remote job)

Nov 2023 - JAN 2024

#### React Native Developer

As a React Native Developer at Awwailtech, I specialized in translating Figma designs into functional code, ensuring seamless integration with APIs. I conducted rigorous testing using Postman to guarantee robust performance and data integrity. Additionally, I provided mentorship and support to junior developers, assisting them in troubleshooting errors and fostering their professional growth.

### Project Base (Remote job)

Feb 2024 - May 2024

#### React Js Developer

During my project-based role, I adeptly translated Figma designs into interactive web applications using React.js, Tailwind CSS, and Material UI, ensuring sleek and responsive user interfaces. I seamlessly integrated APIs to enhance functionality and data flow, while implementing cookie management for optimized user experiences. Furthermore, I leveraged Stripe for secure and seamless payment integration, contributing to the success of the projects.

### Createexx Lahore

Jun 2024 - Present

#### React Js Developer

At Createexx, I converted Figma designs into code, emphasizing seamless user experiences. I employed Redux for state management, integrated local storage and cookies for data handling, and utilized Material UI for streamlined development.
