## ABOUT ME

As a Software Engineer, I'm known for my dedication to quality work and love for teamwork. I enjoy combining technical skills with collaboration to solve problems. I'm passionate about creating solutions that make a difference and thrive on pushing boundaries. Ready to bring my energy and ideas to your team, I'm excited to tackle new challenges together. Let's work together and create something great.

## WORK EXPERIENCE

[ 01/08/2023 – 30/09/2023 ]

### Full Stack Developer Intern (Angular + .NET)

*Techflo*

**City**: Islamabad | **Country**: Pakistan

[ 01/10/2023 – Current ]

### Full Stack Developer (Angular + .NET)

*TechFlo*

**City**: Islamabad | **Country**: Pakistan

In my experience as a developer, I've gained valuable insights and skills, including:

- Developed user-friendly, responsive frontends with a focus on user-centric design.
- Created backend logic for secure data management and retrieval from databases.
- Prioritized clean, optimized, and maintainable code, organizing projects into easily understandable layers.
- Successfully completed tasks on time and collaborated passionately within the team.
- Managed tasks effectively using Azure Boards for streamlined task management.
- Fostered an enjoyable work environment through effective communication and collaboration with team members and UI/UX designers, simplifying workflows and enhancing project understanding.
- Demonstrated ability to troubleshoot and resolve issues in software development processes, enhancing overall project efficiency.
- Quickly learned new technologies and tools as required by the projects, showing a high level of adaptability and eagerness to learn.

## EDUCATION AND TRAINING

[ 01/10/2019 – 01/07/2023 ]

### BS Software Engineering

**PMAS-ARID University Institute of Information Technology** <https://www.uaar.edu.pk>

**City:** Rawalpindi | **Country:** Pakistan |

## LANGUAGE SKILLS

**Mother tongue(s):** Punjabi

**Other language(s):**

**English**

**LISTENING** B2 **READING** C1 **WRITING** C1

**SPOKEN PRODUCTION** B1 **SPOKEN INTERACTION** B1

**Urdu**

**LISTENING** C2 **READING** C2 **WRITING** C2

**SPOKEN PRODUCTION** C2 **SPOKEN INTERACTION** C2

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## DIGITAL SKILLS

**My Digital Skills**

**Technical Skills:**

Dev Azure | MS Azure | Version Control System (Git) | SQL(MySQL, SQL Server)

**Development**

.NET Web API | Angular TS | Node.js, React.js | .Net, .Net Core, .Net Framework  
| SQL Querying | Entity Framework / Entity FrameworkCore

## PROJECTS

### MOVD

As a junior developer at Techflo, I played a key role in developing a custom software solution for Movd. My responsibilities included:

- Frontend Development:
  - Utilized Angular (version 14) for frontend development tasks.
  - Integrated frontend functionalities with backend APIs to ensure smooth communication and data exchange.
- Backend Development:
  - Collaborated with teammates focusing on backend development using .NET Web APIs.
  - Implemented API integration to connect frontend and backend systems seamlessly.
  - Created procedures and triggers to enhance database functionality and automate processes.
- Database Management:
  - Utilized SQL Server Management Studio for managing the Movd database.
  - Developed stored procedures and triggers to optimize database performance and automate tasks.
- Project Management:
  - Used Azure DevOps for project management.

- Tracked tasks, features, and bugs.
- Updated task statuses (in progress, completed, pending) for effective project management.

### **USER AUTHENTICATION SYSTEM**

Implemented encryption techniques like hashing and salting to securely store user passwords in the Microsoft SQL Server database, ensuring the protection of sensitive user information. Leveraged .NET Core for handling user authentication routes, managing sessions, and ensuring secure communication between the client and server

### **REST API**

Developed and implemented Create, Read, Update, and Delete (CRUD) operations using Microsoft SQL Server and .NET Core to efficiently manage and manipulate data within the database

## **RECOMMENDATIONS**

---

Prove ability to leverage software engineering skills and a keen understanding of complex systems to deliver solutions that drive business success.
