<https://play.google.com/store/apps/details?id=com.ls.tapmee>

Tools: Kotlin,NFC, Restful Api's, Firebase,Retrofit,MVVM

Tapmee Share your social media and contact details in a smart, quick, and sustainable way and a bussiness card creator, work using NFC Tags. if i scan some one AddMee tag if i have app it will open ther other wise in browser. It contain all social apps links and others. on single click we get social profile of our friends and get comnucated.

File Manager

Company: Logiqon Solutions / Farhan Zamir

Tools: Kotlin,Firebase

File Manager is an easy and powerful file explorer for Android devices. It's free, fast and full-featured. Because of its simple UI, it's extremely easy to use. You can easily manage storages on your device, NAS(Network-attached storage), and cloud storages. What's more, you can find how many files & apps you have on your device at a glance immediately after opening the app.

It supports every file management action (open, search, navigate directory, copy and paste, cut, delete, rename
