### SUMMARY

I'm a hardworking individual, ready to take on challenges. I'm looking for a Associate Software Engineering role where I can apply my skills, learn more, and contribute to the organization's success with my knowledge and intelligence.

### WORK EXPERIENCE

#### Trainee Associate Software Engineer | HazelSoft April 2024 - July 2024

- Completed intensive training in ASP.NET Core, where I worked on C# assignments, strengthening my OOP concepts.
- Developed web APIs with user authentication, role-based authentication, email confirmation, and CRUD operations with image upload.
- Collaborated with a team to create a CRUD API for a client project, enhancing teamwork and project management skills.

#### Freelancing | Fiverr Jan 2021 - Nov 2023

- Successfully completed multiple frontend projects using HTML, CSS, and react delivering responsive and visually appealing websites for various clients.
- Developed WordPress websites, including theme customization and plugin integration, ensuring client satisfaction and enhanced website functionality.
- Completed various programming tasks in C#, C++, C, and Java, demonstrating strong problem-solving skills and proficiency in multiple programming languages.

### PROJECTS

#### Shopnate | Figma to HTML CSS [Repo Link](#)

- Translated client-provided Figma designs into responsive HTML and CSS, ensuring pixel-perfect accuracy and adherence to design specifications.
- Create a user-friendly and visually appealing interface, enhancing overall user experience.

**TechStack:** HTML, CSS, JavaScript

#### Integrated Management System | Final Year Project

- This project aims to streamline and automate the management processes of the Police Training School. My primary role in this project is focused on frontend development, ensuring a user-friendly and visually appealing interface.
