

HASHIR UBAID

Jr. Data Scientist

+92(313-6922975) · hashir.ubaid55@gmail.com ·
House 9M Madina Colony Vehari - Punjab - Pakistan

[Linkedin](#)

[Github](#)

Junior Data Scientist with a strong background in statistics and programming. Proven ability to analyze complex data sets, identify trends. Skilled in machine learning algorithms and data visualization techniques. Looking to contribute to a dynamic team and continue developing expertise in the field of data science.

Key Skills

- Data Analytics
- Data Science
- Machine Learning
- Deep Learning
- Statistical Analysis
- Report Writing

Professional Experience

Market Research Analyst

Opporix, (Remote) Karachi - Pakistan

November 2022 - Present

- Conducted market research analysis to assist organizations in achieving high customer satisfaction based on historical data and research findings
- Utilized data analytics tools to identify trends and provide actionable insights for decision-making
- Developed reports and presentations to communicate findings

Data Analyst + Report Writing

Freelacer - Pakistan

March 2022 - Present

- Analyzed complex datasets and developed automated reporting systems, enhancing data accessibility and supporting data-driven decision-making.
- Created comprehensive reports, visualizations, and dashboards using tools like Tableau, Power BI, and Excel, and communicated insights to stakeholders.

Article Writer and Publisher

Freelacer - Pakistan

May 2021 - Present

- Authored numerous articles on topics within the data science, machine learning, and data analysis fields for various websites
- Worked as a part-time writer, showcasing expertise in report creation and article writing for specialized audiences in the tech industry.

Data Science Intern

CodSoft (Remote) India

November 2023 - December 2023

- Executed diverse data science projects, leveraging statistical analysis and machine learning techniques to address business challenges and extract actionable insights.
- Developed, tested, and refined machine learning models to predict outcomes and enhance decision-making processes, utilizing Python and libraries such as scikit-learn..
- Collaborated with cross-functional teams to understand project requirements, present findings, and implement data-driven solutions, contributing to overall project success.

Certifications

Data Science Virtual Internship, CodSoft, 12/2023, completed 4 weeks of a virtual internship program in Data Science with wonderful remarks at CODSOFT from 05/11/2023 to 05/12/2023. • Comment # We were truly amazed by his/her showcased skills and invaluable contributions to the tasks and projects throughout the internship.

Education

The Islamia University Bahawalpur

Bachelor's in Data Science

2020 - 2024

Government Degree College Vehari

Intermediate in Computer Science

2018 - 2020

Government Model Higher Secondary School Vehari

Matric in Science

2016 - 2018

Projects

- Image Caption Generator Using Deep Learning Technique CNNs a& LSTNs
 - Predicting Credit Card Approvals.
 - Investigating Netflix Movies and Guest Stars in The Office.
 - Titanic Survival Prediction Model.
 - IRIS Flowers Classification Using Machine Learning.
 - Econometric Analysis of the Impact of Financial Sector Development on Agricultural Growth in Developing Countries.
 - Econometric Analysis of the Impact of Financial Development on Bicycle Sales
-

Goals

As a dedicated and meticulous data scientist, I am passionate about extracting insights from complex datasets to address real-world challenges. I aspire to join a leading technology company such as Google, Microsoft, or Amazon, where I can contribute to groundbreaking projects, collaborate with exceptional professionals, and hone my expertise in advanced data science methodologies. I am eager to apply my analytical skills and innovative thinking to drive data-driven decision-making and deliver impactful solutions that support the strategic goals of the organization.
