Alteraz Heavy Vehicles Repairing UAE

Sep 2019 - Jun 2021 (1.8 years)

Software Developer

Ras al Khaimah, United Arab Emirates

As a software developer, I am committed to delivering high-quality software solutions that meet business needs and exceed user expectations. My adaptable nature and ability to learn quickly enable me to tackle new challenges and technologies with confidence. I thrive in collaborative environments and take pride in my ability to translate intricate technical concepts into user-friendly applications that make a positive impact.

Freelancing

Dec 2018 - Jan 2023 (4.1 years)

Full Stack Web Developer / Backend Developer

Sargodha, Pakistan

As a PHP and .NET Web Developer freelancer, I offer my expertise in designing and developing web applications using PHP and .NET technologies. With my years of experience, I am proficient in using frameworks such as Laravel, CodeIgniter, ASP.NET, and .NET Core to create dynamic and interactive web applications.

I am well-versed in managing databases, writing SQL queries, and ensuring data integrity and security. I have a keen eye for front-end development, creating user-friendly interfaces using HTML, CSS, JavaScript, and other front-end technologies, and implementing UI/UX designs for optimal user experience.

As a freelancer, I am experienced in integrating web applications with APIs, third-party services, and databases to fetch and store data as required. I am skilled in conducting thorough testing and debugging to ensure the functionality, performance, and security of web applications, and optimizing code for better performance.

Akvon Software Solution

Feb 2018 - Sep 2018 (7 months)
