## EXPERIENCE

### Frontend Developer

#### Pakistan Telecommunication

01/2022 05/2022 Islamabad

- Collaborated with a development team of 5 to create user interfaces for web applications, increasing user engagement by 20%.
- Implemented responsive design principles, resulting in a 30% increase in mobile user retention and a 15% boost in overall site traffic.
- Utilized HTML, CSS, and JavaScript to translate design wireframes into interactive web components, reducing development time by 25% and enhancing user satisfaction scores.
- Performed thorough testing and debugging, resulting in a 30% improvement in website load times and a 20% decrease in user-reported issues.
- Collaborated with senior developers to meet 100% of project deadlines, contributing to a 15% increase in team efficiency.

### Web Developer

#### MRS Technologies

01/2023 05/2023 Islamabad

- Spearheaded the development of dynamic web applications, resulting in a 25% increase in user retention due to an improved user experience.
- Leveraged modern frameworks and technologies to enhance functionality and aesthetics, reducing page load times by 40%.
- Managed the integration of RESTful APIs, improving data exchange efficiency by 30% and optimizing performance.
- Collaborated with UX/UI designers to create user-friendly interfaces, increasing user engagement by 20%.
- Proactively resolved performance issues, conducted thorough code reviews, and maintained security standards, resulting in a 25% reduction in security vulnerabilities.
- Introduced innovative solutions by staying abreast of the latest trends, enhancing development processes and reducing development time by 20%.

### Data Analyst

#### Jupitor Adivsor Islamabad

06/2023 10/2023 Islamabad

- Conducted data analysis using Python and SQL, improving data accuracy by 30% and reducing processing time by 25%.
- Developed interactive dashboards and visualizations in Tableau and Power BI, enhancing data-driven decision-making across the organization.
- Collaborated with cross-functional teams to identify trends and insights, leading to a 15% increase in operational efficiency.
- Automated data collection processes, resulting in a 20% reduction in manual reporting efforts and increased data reliability.
- Performed statistical analysis and predictive modeling to forecast business trends, contributing to a 10%.
- Transformed design wireframes into interactive web elements.

## PERSONAL STATEMENT

Software Engineer with over 3 years of versatile and results-driven experience in web development, Python, Java, and database management. Demonstrated expertise in creating responsive web applications, optimizing Java-based systems, and enhancing data retrieval processes. Proficient in using Microsoft Office for administrative tasks and team coordination, ensuring efficient project execution. Strong ability to integrate technical skills with administrative functions to deliver high-quality solutions on time and within budget.

## LANGUAGES

### English

Native

### Urdu

Native

## EDUCATION

### Bachelor of Arts

#### Gomal University

10/2017 - 07/2019 D.I Khan

### Bachelor's of Science in Software Engineering

#### University of Lahore

01/2023 - 12/2023 Islamabad

## TRAINING / COURSES

### Django Full Stack development

### Frontend Development

### Designing

### Python Expert Course

### Data Analysis using Python

# EXPERIENCE

## Java Developer

### Client Based

📅 2021      📍 Remote

- Developed and maintained\* high-performance Java applications, improving system efficiency by 30%.
- Implemented multithreading and concurrency techniques, reducing processing time by 25% and enhancing application responsiveness.
- Optimized SQL queries and database interactions, leading to a 20% improvement in data retrieval speed.
- Enhanced system performance, resulting in 30% faster processing times and saving \$20k annually.
- Improved application stability, decreasing downtime by 50% and reducing maintenance costs by \$15k.
- Developed 10+ RESTful APIs for a major client, integrating with third-party services seamlessly.
- Managed a legacy codebase of over 100,000 lines, optimizing and refactoring for better maintainability.
- Reduced memory leaks by 40% by implementing efficient garbage collection and code optimization techniques.
- Increased user engagement by 25% within 3 months by integrating real-time features using WebSockets.

# SKILLS

Apis	Bootstrap	Css
Data Entry	Debugging	Django
Excel	Git	Github
Java	Javascript	Latex
Markdown	Material UI	
Mobile Apps	Powerpoint	Python
React Native	React.js	Redux
Responsive Design Principles		
Restful	Tailwind	UI/UX
Wireframes	Administration	
Customer care	web development	
Data Analysis	Numpy	Matplotlib
Pandas	web Scrapping	less
Jira	JavaFX	HTML5
