EDUCATION

National University of Computer and Emerging Sciences (FAST)
Bachelors in computer science

2019–2023

EXPERIENCE

Intern, Codsoft

Aug-Sep 2023

As a web developer intern at **Codsoft**, contributed to various web development projects, gaining hands-on experience in frontend technologies.

Intern, MNIOPS

Jan-JUN 2024

Currently interning as a software engineer at **MNIOPS**, involved in diverse software development tasks and gaining practical insights into industry practices.

ACADEMIC PROJECT

Grow Smart-Final Year Project (NODE JS, EXPRESS JS, MONGO DB, REACT JS)

Grow Smart is an exciting and valuable project that seeks to empower parents with the knowledge and tools necessary to promote their child's growth and development. Through collaboration and community-building, this platform will provide a supportive and engaging environment for parents to learn, grow, and thrive.

Dino Automation (Python, AI, Image Processing)

Automated the Dino offline game on Google using AI and image processing techniques.

COVID Management System (C#, MySQL)

Developed a system to track vaccinated and non-vaccinated patients with separate portals for patients and doctors.

Bot System Website (MERN Stack)

Developed a web-based project to train a bot to answer chat replies related to the site.

Daira App (JAVA, Android Studio, Firebase)

Created an event-based app allowing people to register for events via an online portal.

SKILLS

- Programming Languages: C++, Python, JavaScript
- Technologies: NODE JS, EXPRESS JS, React JS, MongoDB
- Tools: Android Studio, Firebase
- Database Management: SQL, MongoDB
