EDUCATION

Bachelor of Science - BS, Computer Science

National University of Computer and Emerging Sciences

08/2016 - 12/2021 Lahore, Punjab, Pakistan

SUMMARY

I am a Software Engineer with 3 years of experience having a strong foundation in Ruby on Rails, PHP Laravel, Javascript, and a broad range of web technologies. I have valuable experience in agritech, where I worked on an application that directly connected retailers, restaurants, and food businesses with farmers, facilitating seamless procurement of fresh produce. Additionally, I contributed to the healthtech sector where I helped in developing an app that enabled online ordering of COVID-19 tests and delivery of testing equipment to patients, streamlining the testing process from order placement to lab testing. My technical expertise extends to modern frameworks and languages such as Angular, TypeScript, and GraphQL, underpinned by a commitment to best practices in code quality and software architecture
