ASSOCIATE SOFTWARE ENGINEER

As an Associate Software Engineer , I possess a strong foundation in front-end development, with extensive knowledge in HTML, CSS, and JavaScript, as well as familiarity with ReactJS. I am experienced in building responsive and user-friendly websites, with a keen eye for design aesthetics to ensure that the websites I develop are both visually appealing and functional.

In addition to my front-end development skills, I am proficient in back-end programming languages such as C# .NET, NodeJS, and SQL.

TECHNICAL SKILLS

JavaScript	Html	NodeJs
ReactJs	CSS	ExpressJS
Redux Toolkit	Tailwind CSS	MongoDb
NextJs	MVC	.NET Core

PROFESSIONAL EXPERIENCE

Devsinc

August 2023 - Present

Associate Software Engineer

- Implemented Redux middleware for asynchronous actions, such as API calls and data manipulation.
- Upgraded routing mechanisms using React Router to enable dynamic and nested routes for improved navigation.
- Implemented loading spinners and fallback UI components to enhance user experience during data fetching and rendering.
- Improved perceived performance by minimizing content flickering and providing visual feedback during asynchronous operations.
- Resolved critical bugs and performance bottlenecks, contributing to a smoother browsing process.
- Enhanced the global state management using Redux Toolkit & Context API optimizing data flow and ensuring consistent application state.
- Worked closely with QA engineers to identify and resolve bugs, ensuring a stable platform.

EDUCATION

University of the Punjab

Bachelors in Information Technology

Lahore, Pakistan

2019-2023

Lahore College for Women University

Intermediate in Pre- Engineering

Lahore, Pakistan

2017-2019

PROFESSIONAL PROJECTS

Remotereps

Participated in the front-end development of RemoteReps' service delivery platform using NextJS, focusing on Admin, Client, and Talent applications. Implemented responsive design, created new components, and developed modals and UI elements based on client-provided Figma designs. Enhanced user experience by enabling functionalities such as scheduling meetings and managing service interactions.

Trello Clone

Developed a dynamic Trello-like project using React, used Context API for state management and React Beautiful DnD for drag-and-drop functionality. Used react-feather for icons and react-tiny-popover library for user-friendly color selection, showcasing proficiency in frontend development.

PERSONAL PROJECTS

FYP - Project Management System for Construction Company

This application facilitates construction companies in achieving results efficiently and clutters out every ambiguity through a milestone format. ASP.NET Core MVC framework is used.

BDMS- Blood Donation and Management System

Developed this application as a semester project in Java. It lets user maintain records of blood donors in an easy way.

Vaccination Record System

This application lets user insert, update and delete vaccination records of people, developed in C# .NET.

HONORS & AWARDS

Character Building Certificate

Received Character Building Certificate for outstanding integrity, responsibility, and perseverance in personal and professional conduct from Next-Generation Pakistan (NGP).

Global Perspective Certificate

Received Global Perspective Certificate for understanding and appreciating diverse cultural viewpoints. Recognized for fostering a positive and inclusive environment from Next-Generation Pakistan (NGP).
