EDUCATION

Comsats University Islamabad, Lahore Campus

Bachelor of Science in computer engineering

Sept. 2018 – Jun 2022

EXPERIENCE

Dubizzle Labs

Jan 2023 – Present

SQA Engineer

- Improved international mobile applications for Bayut.com on Android and iOS platforms. Responsibilities included understanding new feature requirements, conducting feature testing, API testing, sanity checks, and regression testing. Collaborated with internal teams, including product managers, to address system requirements. Performed post-release monitoring using Firebase and Google Analytics GA4, and addressed relevant issues promptly
- Provide suggestions for better UI/UX experiences on Figma and updated designs accordingly
- Actively involved in conducting technical interviews to hire potential candidates for the QA team
- Trained new hires by providing them with an in-depth understanding of the product domain

Ozoned digital

June. 2022 – December. 2023

Associate SQA Engineer

- Involved in writing test cases and test plans to ensure high-quality and timely project delivery
- Worked on end-to-end SDLC for both web and mobile apps, utilizing Scrum and Agile Testing methodologies. Work closely with the product team in requirement gathering, documenting, and delivering the development team knowledge about the features .

Engin Technologies

June. 2021 – September. 2021

Intern SQA Engineer

- Get to work on different tools like Jira, and Microsoft Azure, DevOps, Manual test cases on Excel, Trello and Basic Automation Testing Concepts

PROJECTS

E-commerce Website

- Develop a complete E-commerce website using React js, MongoDB and Node js

Data Communication and Computer Networks

- Designed a network for a hospital and departmental store by ensuring successful connectivity between different departments as a network engineer on Cisco Packet Tracer

Final Year Project

- Improved electrical appliance identification accuracy using energy aggregated data and deep learning.
- Developed a mobile app with Flutter and Firebase to display voltage, current, and active appliances.
