🌐 Lahore - Punjab

A Motivated Fresh graduate from the University of Engineering and Technology, seeking an entry-level position to apply and further develop my skills. With a strong foundation in Quality Assurance, UI/UX analysis, and SQL Query Development, I am eager to contribute my proactive approach and effective interpersonal abilities to a dynamic team. Open to learning and ready to bring a fresh perspective to make positive contributions in a professional setting.

Experience

QA Manual Testeer

Jan 2024 - Mar 2024

- Applied quality engineering principles throughout the agile product lifecycle to properly plan, manage, and execute work.
- Analysed user stories to communicate product features and gain an understanding of user preferences and functionality.

Teaching Assisstant - UET

Sep 2023 - Dec 2023

- I worked as a teaching assistant for database labs, where I assisted junior students with queries and provided help in understanding database theory.

Flutter Developer Intern

Jun 2023 - Aug 2023

- I completed an internship at Crystal Solutions, where I worked on Flutter mobile application development
- This involved both backend and frontend development, including the implementation of APIs.

- C++/C#
- Python
- React / Angular
- MVC .Net
- Database Mssql/ Mysql
- GitHub/GitLab
- HTML/CSS/React JS
- Angular
- Flutter
- Flask

Projects

Ordering Application for Johnny Jugnu - demo

Oct 2023 - Nov 2023

- Designed a mobile application demo for Johnny Jugnu, a renowned eatery brand in Pakistan. The demo included a feature where customers can place orders for specific tables by scanning QR codes.
- Technology Stack: Python, Flask

Freelancing

Mar 2023 - Current

- I have undertaken various mini projects in freelancing, including database designing, database assignments, and front-end development.
- Technology Stack: C#, C++, MSSQL, MySql, Python, React JS, HTML/CSS

IoT-based Smart Diary Farming

Jun 2023 - Jun 2024

- Developed an IoT-based dairy farming system integrating sensors to monitor cows' health parameters and environmental conditions. Implemented a Flutter mobile app for real-time data display and analysis.
- Technology Stack: Flutter, MVC .Net, C#, MSSQL

Clinic Management System

Oct 2022 - Dec 2022

- Designed and developed a desktop application using C# for managing doctors, assistant nurses, and patients. The application enables doctors to access patient histories and prescribe medicines available in the hospital pharmacy. It includes stock management functionality.
- Technology Stack: C#, MsSql

Certificates & Achievements

- Foundations of Software Testing and Validation - Coursera
- Foundations of User Experience (UX) Design - Coursera
- Ignite Funding for Final Year Project
- Stem Project Exhibition
- ITECH Project Exhibition
