PERSONAL PROJECTS

EMPLOYEE PERFORMANCE TRACKING AND WORKFORCE MANAGEMENT(FYP)

- Synergy HR, a transformative web application tailored for PTCL, redefines workforce management by seamlessly integrating task allocation, real-time communication, and performance tracking. Designed to enhance efficiency and accountability across all organizational levels, it revolutionizes traditional paper-based processes

Spotify Clone Website(HTML,CSS,JAVA SCRIPT)

- Created a replica of Spotify's interface using HTML, CSS, and JavaScript, focusing on music playback controls, playlist management, and responsive design.

Hospital management system (SQL)

- Developed a comprehensive Hospital Management System (SQL) emphasizing efficient patient care and administrative workflow

tic tac toe (C++)

- Created a console-based Tic-Tac-Toe game in C++, demonstrating proficiency in C++ programming and algorithmic logic for game rules and user interactions
