SKILLS

ASP.NET CORE MVC & Web Restful
api
Entity Framework Core
Multi Layer Architecture
Micro Services
SQL
MySql
Postgresql
C# & ADO . Net
Angular

EDUCATION

Matriculation

**Government M.C High School
Samanabad Faisalabad**

2014 - 2016

Got 751 Marks out of 1100

ICS

**Government post graduate
college of science Faisalabad**

2016-2018

Got 651 Marks out of 1100

BS Computer Science

Virtual University of Lahore

2019 - 2023

Got 3 CGPA out of 4

LANGUAGES

Urdu

English

Punjabi

PROFILE

Experienced and highly skilled .NET developer with 2.5 years of hands-on expertise in designing, developing, and deploying software applications using C#, ASP.NET, and SQL Server. Adept at analyzing user requirements and translating them into scalable, secure, and maintainable code solutions. Proven ability to collaborate effectively with cross-functional teams to deliver projects on time. Proficient in breaking down complex projects into manageable steps, setting clear objectives, and prioritizing activities effectively.

WORK EXPERIENCE

Dot Net Developer

Sher Serve

01- 2022 To 08 - 2023

- Proficient in developing web applications using ASP.NET Core MVC and Web API frameworks, leveraging modern design patterns such as Model-View-Controller (MVC) and RESTful API principles. Skilled in building responsive and scalable front-end interfaces with Razor views, HTML5, CSS3, and JavaScript/jQuery.
- Experienced in designing and implementing robust backend solutions with Entity Framework Core for ORM (Object-Relational Mapping) and ADO.NET for direct database operations, ensuring optimal performance and data integrity. Capable of integrating authentication and authorization mechanisms using ASP.NET Identity and JWT tokens for secure API endpoints.
- Extensive experience in designing and implementing applications using multi-layer architecture principles to achieve separation of concerns, modularity, and maintainability. Proficient in architecting solutions with distinct layers.
- Hands-on experience in optimizing database queries and stored procedures for SQL Server, enhancing application performance and scalability.

Dot Net Developer

Techno Batch

08 - 2023 To Current

- Proficient in designing and developing robust and scalable web APIs using ASP.NET Core, adhering to RESTful architectural principles. Experienced in creating microservices-based applications
- Designed and implemented microservices architecture patterns, promoting modularity, scalability, and maintainability. Decomposed monolithic applications into smaller, independent services, each responsible for specific business functions.

Projects : Microsoft Edge, Fedex, Point of Sale, School Management, E-Commerce Web Applications, Inventory System
