

Muhammad Ahtesham Noor

Lecturer / Subject Specialist at Bahria University Islamabad Campus

Throughout my career, I have gained comprehensive expertise in various programming languages, including Java, Python, and C I have also developed a strong understanding of software development principles and practices, including Agile methodology and DevOps. Additionally, my academic background in computer science has allowed me to stay up-to-date with the latest advancements in the field and apply them to my work. I have a proven track record of delivering high-quality software solutions that meet client requirements and exceed expectations. My experience includes developing web applications, designing and implementing databases, and creating scalable and maintainable software architectures. I am also skilled in debugging and troubleshooting complex software issues. I am confident that my skills and experience make me a valuable asset to your team. I look forward to discussing my qualifications further and learning more about the opportunities available in your organization.
