📁 Projects

Luxury Explorers, CRM [🔗](#)

Developed a comprehensive accounting system for Luxury Explorers, an Events company, using ReactJS. The project aimed to streamline financial processes, enhance data accuracy, and provide a user-friendly interface for efficient management of accounting tasks.

ErisBiz, SAS [🔗](#)

Developed a comprehensive Company Management System using React JS, catering to the financial and stock management needs of businesses. This project aimed to provide data-driven insights, streamline accounting processes, and optimize stock-related operations for improved decision-making.

Wezily, Editor [🔗](#)

The Drag-and-Drop Website Builder Platform is an innovative web application designed to empower users with no coding knowledge to create and customize their own websites effortlessly. The platform provides a collection of professionally designed templates catering to various industries and purposes.

Wezily, Client Portal [🔗](#)

A Client Portal to manage projects, galleries, SEO settings, and domain/SSL settings enhances the functionality and user experience of your website builder platform.

📁 Personal Projects

CARERS BUDDY APP, Social App [🔗](#)

A social networking app similar to Facebook, focused on connecting people with shared interests and facilitating chat

Spicy Cottage, Food Ordering App [🔗](#)

A food ordering and delivery app for restaurants involves creating a user-friendly interface to order food
