PROFILE

I am CS undergraduate with keen interest in web and mobile application development. I'm exploring different languages and seeking entry-level full-time roles. Possessing a keen attention to detail and the ability to grasp new concepts quickly.

EDUCATION

University of Engineering and Technology, Lahore,
BS Computer Science

Oct 2020 – Jun 2024

TECHNICAL SKILLS

- | | | | |
|--------------|----------|------------|------------------|
| • C++/C# | • Python | • ReactJS | • .NET Framework |
| • Java | • MySQL | • Flutter | • Javascript |
| • PostgreSQL | • Github | • Overleaf | |

PROJECTS

A Fitness System, (*Flutter, PostgreSQL, Nest.js, Firebase*)

Sep 2023 – Jun 2024

- Used Firebase for Google authentication to easily integrate secure and reliable user login functionality into our app, enhancing user experience and security.
- Utilized Nest.js, a progressive Node.js framework, to build efficient and scalable server-side applications, ensuring maintainability and performance.
- Used PostgreSQL as a powerful and reliable relational database system, ensuring robust data management and seamless interaction between the server and the database.

ATM Management System, (*C#, .NET, MySQL*)

Apr 2022 – Jun 2022

- Developed core functionality using C# to handle ATM operations and business logic, ensuring robust performance and maintainability.
- Leveraged the .NET Framework to create a secure, responsive, and user-friendly interface for seamless user interactions.
- Utilized MySQL for efficient data storage and retrieval, ensuring data integrity and consistency across all transactions.

CERTIFICATES

• Introduction to Business

LUMS 2022

• Introduction to AWS

AWS Academy 2024
