

# Muhammad Naveed

## Front-end Developer

I am a dedicated Frontend Developer with 3 years of experience in crafting responsive and user-friendly websites. Proficient in HTML, CSS, JavaScript, and React.js, I take pride in my ability to code with precision and an eye for detail, consistently delivering high-quality web projects. My collaborative nature allows me to work effectively within teams, and I am continually seeking opportunities to learn and enhance my skill set.

## PERSONAL PROJECTS

### DGM Billing

- Developed the frontend using Bootstrap to create a responsive and intuitive user interface for DGM Billing, a media website specializing in medical billing services.
- Collaborated with design teams to ensure the interface met industry standards and user expectations.

### Vixo Link

- Developed the frontend for "Vixo Link," a banking finance project based in the USA that provides loans for organizations and customers.
- Utilized React.js to build a dynamic and responsive user interface, ensuring a seamless experience for users.
- Implemented UI features for loan applications, account management, and financial transactions, enhancing the overall user experience.

### The Yoga Loft

- Developed "The Yoga Loft" website using WordPress, designed to facilitate user registration for yoga classes.
- Implemented features for online classes, workshop events, teacher training, and community engagement.
- Enabled new students to register and take classes, while also providing community support for ongoing students.
