## WORK EXPERIENCE

---

### Worked at Systems Limited

February 2024 – July 2024

#### *Flutter Mobile App Development*

- During my time at **Systems Limited**, I took on the exciting challenge that I made the exact same replica of K-Electric mobile app design through my code.
- I explored all concepts of flutter like riverpod for state management, Integration with Nodejs and Firebase etc.
- Additionally, I developed my ability to collaborate effectively within a team, gaining valuable insights into managing and contributing to real-time projects.

### Fiverr, Freelancing

Aug 2022 – Present

#### *WordPress, Optimize press*

- I am currently Level 1 seller on Fiverr Completed 54 projects and having a rating of 4.8
- Helped me to make better understanding to lead the project and manage the Project
- Having a better understanding to how to deal with the client and how we have to get the requirements of the client and how to fulfill and also make a agreement with the foreigner clients.

## PROJECTS IN WEB DEVELOPMENT

---

### **Edu Mentor AI (TRANSFORMING THE NEW YOU)**

Aug 2023 – Jul 2024

#### *FINAL YEAR PROJECT*

- Developed using reactjs,nodejs, mongodb.
- We implemented teacher dashboard, student dashboard, all their integration with backend, the student can book a trial class, Payment integration, and can get all insights about his study.
- The student and teacher can do chatting, they can have meeting and after each meeting the student will have an Ai generated quiz. To sum up a Complete fiverr related application but as a teacher and student included extra features.

### **Real Estate Clone Website**

Aug 2023 – Jul 2024

#### *Other Students FINAL YEAR PROJECT*

- Developed using reactjs, nodejs, mongodb.
- We implemented the Seller and Buyer dashboard with proper authentication through login and signup verification having functionalities of Chatting between seller and buyer.
- Seller can post his property for sale and rent and the buyer can apply search filters and narrow down his search and he can able to buy any property he likes.
- Pay integration also implemented using Strip

## PROJECTS IN APP DEVELOPMENT

---

### **K Electric App (Energy that moves life)**

March 2024 – Jul 2024

#### *Client Project*

- Developed using flutter and connected with firebase.
- I implemented complete k electric frontend according to the design from client.
- Made dashboard, and all other screens so that user can able to do all his working using his app.
- Features enlisted like Live Power Status, Load-shed Schedules, Billing Details & History, Real-time KE Notifications, Find Your Nearest Customer Care Centre etc.

### **Edu Mentor Mobile App**

Aug 2023 – Jul 2024

#### *FINAL YEAR PROJECT*

- Developed using flutter and connected with mongodb.
- I Implemented the app similar to the fiverr mobile app but it having our project features.
- Student can search any mentor, calling system, chatting system and time table along with the profile management etc
