

With over 4 years of experience as a MERN stack engineer, I specialize in developing dynamic, responsive, and user-friendly websites. I have a proven track record in team management, deployments, and active participation in architectural design, ensuring optimal solutions. Committed to delivering high-quality user experiences, I stay current with emerging technologies to make impactful contributions to development.

PROFESSIONAL EXPERIENCE

Software Engineer

Kinectro Software Technology | March 2021 - Present

- Designed and developed responsive web applications in the MERN Stack
- Integrated third-party services like Fireblocks, Calendly, Monoova, and API into existing projects.
- Participated in the full software development life cycle (SDLC) from requirements gathering through system implementation.
- Worked closely with product owners to identify requirements and prioritize tasks.
- Led a multi-disciplinary team to design, and develop Web applications.
- Provided application support and troubleshooting for complex software application issues.

Frontend Developer

Coding Agents | July 2020 - Feb 2021

- I've been instrumental in designing and implementing user-centric interfaces, seamlessly integrating front-end components.
- I've successfully optimized application performance for diverse devices.

Computer Instructor

The Smart School | May 2018 - Jun 2020

- I've spearheaded Computer Science education at The Smart School and Academy. Mentoring students to master programming languages and systems, I've also taken charge of website portal maintenance, ensuring seamless functionality and integrating cutting-edge online resources. Additionally, by managing the database for school administration.

Software Engineer Intern

OrviSoft Inc. | Nov 2017 - Apr 2018

- Seeking a motivated Junior Web Developer with experience in HTML, CSS, JavaScript, Bootstrap, PHP, and MySQLi. Responsibilities include collaborating on web application development, writing clean and efficient code, and assisting in debugging and troubleshooting. Ideal candidate is detail-oriented, a quick learner, and thrives in a collaborative team environment.

PROJECTS

NEBULAPAYMENTS

<https://nebulapayments.online>

- Nebula Payments is a pioneering platform streamlining currency exchange and crypto transactions, prioritizing innovation and security. With seamless integration with Monoova and Fireblocks, users can effortlessly buy, sell, and manage digital assets, ensuring a robust and secure ecosystem for fiat and crypto transactions.
