
SENIOR PROJECT / PROGRAM MANAGER

I am a seasoned Project & Program Management Professional with extensive expertise in IT across various technical positions. I have successfully delivered numerous national and international projects and programs, focusing on technology initiatives worth millions globally since 2009. Over the past decade, I have led and delivered end-to-end financial technology projects and programs as a Senior Project Manager, consistently achieving significant benefits, including millions of dollars revenue generation.

*I attained training in **PMI PMP** by an internationally reputed trainer. Currently, I am pursuing my **PMI PgMP** certification and will get certified in the following couple of weeks.*
