Android App Development (4 months)

Certificate

Web Developer (3 months)

Search Engine Optimization (6 months)

Social media marketing (6 months)

Data Entry (8 months)

Final Year Project

Real Estate Property System

In this project, we will provide a live coverage area for a property that means which plot is free, sell, and booked. At the same time, we will provide details like how much Marla is, where is located, and which block, area, and street. So provide some such information. Further, we will provide customer details like which plot has been sold, booked at which time and date, and also who have done it.

Show plots on the map with these colors:

Every plot marked with the same color according to its status just like

Green color for free plots (available)

Yellow color for booked plots

Red color for sell plots
