EXPERIENCE & PROJECTS

Metaruffy, Lahore — *MERN stack*

08/2022 - 07/2024

Developed a web application (Loobr) for an NFT marketplace, integrating Blockchain functionalities, posts, and messaging systems. Key responsibilities included API creation, UI design using HTML/CSS, and seamless API integration.

Developed a web application (artofyolo) aimed at showcasing various locations on an interactive map, enabling users to explore and plan visits to these destinations. The project focused on creating a user-friendly interface that integrates map functionalities seamlessly.

Technologies: Next.js, Material-UI (Mui), Nest.js, Node.js

Projects: Loobr, artofyolo.com

Cloudpacer, Lahore — *Full-stack*

11/2020 - 08/2022

Contributed to various projects including MERN web applications and React Native mobile apps.

Technologies: React JS, Next JS, Express JS, Node JS, React Native, AWS

Projects: seewithin.co, hollimart (MVP), waywiser

Securehops, Lahore — *MERN stack*

11/2019 - 11/2020

Focused on website development, UI creation, and front-end API integrations for applications and admin panels.

Technologies: React JS, Node JS with Express JS, Mui

Projects: mytilly.co, visitstockholm.com, quizHope
