ABOUT ME

Motivated Full Stack Developer with expertise in Unreal Engine, Python Django and React.js. Committed to delivering efficient and innovative solutions. Eager to contribute and grow with a dynamic team.

WORK EXPERIENCE

Associate Software Engineer

Nov 2023 to Present

Dubizzle Labs

As an Associate Software Engineer at dubizzle Labs, I contributed to Zameen Developments by harnessing Unreal Engine 5 to craft immersive VR experiences. Additionally, I played a pivotal role in web development projects, employing HTML5, JavaScript, CSS, Django, React, and XML. My collaborative approach ensured seamless integration and innovative solutions.

Full Stack Developer

2023

Code Genesis

I have been working with Python Django, React-Native and React.js to build sophisticated web and android applications. With 1 year of experience at the company, I have been actively involved in both the frontend and backend development, contributing to the successful implementation of various projects. This position has allowed me to continuously enhance my technical expertise while collaborating with a talented team to deliver high-quality solutions.

Software Engineer Intern

2022

Devsinc I D-tower

During my enriching two-month internship at DevsInc, a prominent software development company, I specialized in Python Django web development. Immersed in real-world projects and mentored by seasoned professionals, I honed my skills in creating robust web applications like Instagram Clone. The experience at DevsInc significantly contributed to my growth as a developer and fueled my passion for building innovative solutions.

OTHER ACTIVITIES

- PAF SSC ISSB 1st appearance for Flying Officer in 2022
- NAVTTC Certification in Cybersecurity from PAF Base Lahore in 2022
- NESTLE SKP Factory internship in 2020
- Bank of Punjab head office internship in HR-MIS in 2019
- Gymnastics
