- P/O Box Kanjrur village, Tehsil Shakargarh, District Narowal

SKILLS

- C# (.NET Framework)
- Python, C++
- MERN
- HTML, CSS, React.js

EDUCATION

BSCS (Bachelor's in Computer Science)

UMT (University of Management and Technology)

2020 - 2024

INTERMEDIATE

Punjab College

2018 - 2020

LANGUAGES

- Urdu
- English

PROFILE

As a highly motivated and dedicated individual, I am a skilled IT professional with strong programming skills and a passion for innovative problem-solving. Proficient in various programming languages and software development tools. Dedicated to delivering efficient and effective solutions, with a focus on quality and precision.

WORK EXPERIENCE

Web Development Experience

- Final Year Project: Tree Plantation and Disaster Mapping Web Application
 - Developed the backend API using MERN stack, integrating Google Maps Live Location API
 - Designed and implemented RESTful APIs to connect frontend and backend
 - Utilized MongoDB to store and manage data
 - Collaborated with team members to deliver a functional web application
 - Gained experience with API integration, geolocation mapping, and full-stack development

Artificial Intelligence Experience

- Individual Project: Face Recognition System
 - Designed and developed a face recognition system using Python and relevant libraries (e.g. OpenCV, NumPy)
 - Implemented algorithms for face detection, feature extraction, and matching
 - Trained and tested the system using various datasets
 - Achieved an accuracy of 99.99% in recognizing faces
 - Demonstrated ability to work independently on a complex AI project

INTEREST

- Programming: C#, JavaScript, Python
- Web Development: .NET Framework, (ASP.Net Core), MVC, Web API
- AI & ML: Machine Learning, Deep Learning, Natural Language Processing, Computer Vision
