Profile Summary

- Experiencing as a Full Stack Web Developer at GenXe.
- Experienced as a District Database Officer at MERF LLINs Project, maintaining project data.
- Experienced as a Web Developer (WordPress, MERN Stack, PHP, JavaScript)

Work Experience

Full Stack WEB Developer
GenXe, Lahore, Punjab

May 2024 -- Onward

Responsibilities:

Front-End Development:

- Designed and developed user interfaces (UIs) for web applications using HTML, CSS, and JavaScript.
- Implemented responsive design principles to ensure optimal user experience across different devices (desktop, tablet, mobile).
- Created interactive elements and animations to enhance user engagement.
- Performed cross-browser compatibility testing to guarantee a consistent experience across various browsers.

Back-End Development:

- Developed server-side logic and APIs using Node.js and PHP technologies.
- Interacted with databases using MongoDB & SQL (MySQL) technologies.
- Implemented security best practices to protect user data and prevent vulnerabilities.

District Database Officer
MERF, Dera Ismail Khan

September 2022 – December 2023

Responsibilities:

❖ Data Management:

- Managed and maintained district-level LLINs (Long-Lasting Insecticide Nets) data within a designated database system.
- Ensured data accuracy and completeness through data entry verification and quality control procedures.
- Performed data cleaning and error correction as needed.

❖ Data Analysis and Reporting:

- Generated reports on LLINs distribution, utilization, and stock levels for district health authorities and project stakeholders.
- Analyzed data to identify trends and potential issues in LLINs distribution and usage.
- Provided data visualizations and reports to support informed decision-making.

❖ Logistics and Data Collection:

- Liaised with district health teams to ensure accurate and timely data collection on LLINs activities.
- Supported data collection efforts through training and technical assistance.
- Monitored data collection progress and identified any discrepancies or missing information.

❖ Database Administration:

- Performed basic database administration tasks such as user management and access control.
- Backed up and secured district-level LLINs data according to organizational protocols.

Achievements:

- Developed a custom Android application for MERF to streamline LLINs project data collection.
- The application facilitated data collection from supervisors and volunteers in the field, improving data accuracy, timeliness, and efficiency.
- The APP's user-friendly interface ensured ease of use for personnel with varying technical backgrounds.
- The application contributed to improved data management and reporting for the LLINs project, enabling better decision-making.
