EXPERIENCE

Devsinc

Jul 2023 - Sept 2023

Web Development Intern

During my internship, I crafted a responsive UI, completed Python training, and managed various tasks. However, the most significant aspect of my internship was the Django training and project. Assigned with creating a comprehensive front-end and back-end Django project, I utilized Django APIs to meticulously design and implement numerous features, ensuring smooth functionality and enhancing user interaction.

Fiverr

Apr 2022 - Present

Freelancing

In my freelancing experience, I've worked on many different projects using various programming languages and technologies. Making sure to deliver top-notch work on time is very important to me.

Tutor

May 2020 - Oct 2020

Olevels - Mathematics

As an O-Level maths tutor, I specialize in guiding students through their coursework, providing tailored instruction and support to help them excel in their studies.
