

**NAME: ALINA IQBAL**

**E-mail:** Alinaiqbal71@gmail.com

**Contact No:** 0092-331-8775118

## OBJECTIVE

---

To work in a dynamic, professional and enterprising environment which will provide me the potential for advancement and increased IT skills, decision-making responsibilities through consistent learning under the business and IT leaders.

## EDUCATION

---

**2011-15** Punjab University College of Information Technology(PUCIT),University of The Punjab, Lahore  
**B.S Computer Science**

**2009-11** ICS – Queen Mary College, Lahore

**2007-09** **Matric-** Pak Angles Foundation School, Lahore

## TECHNICAL COURSES

---

- |                                      |                               |                               |
|--------------------------------------|-------------------------------|-------------------------------|
| • Internet Programming(Java)         | • Object Oriented Programming | • Operating System            |
| • Data Structures                    | • Computer Networks           | • Database                    |
| • Analysis of Algorithm              | • Assembly Language           | • System programming          |
| • Enterprise Application Development |                               | • Mobile Computing            |
| • Parallel Programming               |                               | • Computer Architecture       |
|                                      |                               | • Software Project Management |

## ACADEMIC PROJECTS

---

### **Projects:**

--**Title: Online School Management System**

--**Environment : java, Sql server Management studio , NetBeans**

--**Description:** My project was a website develop in **Java, using Sql Server** for database. This was for those Schools who can't work online or communicate to each other. It has 2 panels, one is User Panel and second one is admin panel. User panel is for students and admin panel is for teachers.

### **Library Management System**

--**Environment: C++, visual studio 2010**

--**Description:** This project is about the library management system. It contains all the information related to books and students. Student can view the books record in the library, can issue the book. Books records are updated by the librarian.

### **Boutique Management System**

--**Environment:** JAVA, SQL Yog , Net beans, OOAD

--**Description** It is a desktop project. Especially for those boutique who never maintain their records in computer and still using register for their records. Manager/Admin is admin who can add, remove, and update their records.

All dresses records is maintained and at the end generate bill for their customers.

### **Class Management Website**

--**Environment:** .Net

--**Description** It is a website where teacher is admin who can mark the attendance online and save all the students in database. And Students can check their profile and attendance of each course and lectures notes.

### **Tabbing Block Game**

--**Environment:** Android, .NET

--**Description** it is a android game where user will tab the block until block disappears. The Server is in .Net side and rest of the game is in android.

### **Final Year Project**

--**Environment:** .Net, Android, SQLITE, SQL MANAGEMENT SERVER

--**Description** It is android app where users can see the Market summary and make prediction about market. It is especially for those who are more interested in stock market and predict about market rates.

## **SKILLS**

---

- **Software:** MS Visual Studio (2010,2012), SQL yog, SQL server management studio, , Net beans, Ration Rose, MATLAB , code blocks , eclipse, Android Management studio
- **Programming Languages:** C , C++, JAVA, C#, JavaScript, HTML, CSS

## **TECHNICAL INTERESTS**

---

- Web development using HTML, java script, jsp.
- Artificial Intelligence and Machine Learning.
- Game development
- Mobile Application (Android)
- Data Mining
- Enterprise Application Development (ADO .NET , ASP.NET )

## **EXTRACURRICULARS**

---

- Member of the PUCIT sports society
- Member of the girls society
- Worked as a volunteer for College Societies.
- Computer Games, Cricket, Badminton, basketball, football
